6.0 FFY 2020-2024 Program Development
Mr. Ferguson gave an overview of the staff recommended FFY 2020-2024 CMAQ and FFY 2020-2022 TAP-L programs.

Mr. Pitstick stated his support for the requirement that projects have preliminary engineering completed to apply, and that the RTA will work with communities to get projects ready for the next funding cycle.

Mr. Rickert stated that he would like to better understand how intersection improvement and roundabout projects are evaluated. Mr. Snyder reiterated the need to better understand how traffic flow projects are evaluated and asked that, during the next call for projects, clarification be provided on “Total Project Cost” and how it should be estimated for projects that are part of a larger overall project.

Mr. Donovan stated that there may be federal eligibility issues with CDOT’s proposed “Chicago Pedway Reconstruction + System Wayfinding Replacement” project, noting that the wayfinding component is eligible but that rehabilitation projects may not be eligible for CMAQ funding.

On a motion made by Mr. Pitstick, seconded by Mr. Sriver, the committee approved releasing the proposed draft programs for a public comment period from July 18 through August 16, 2019.
